Affirmative Platforming:

An alternative model for inclusive campus dialogue

Join us to discuss how no-platforming policies are not matters of free speech, but of distributive justice. Affirmative Platforming is suggested as a new and radical alternative, drawing on the philosophy and politics of knowledge. The session concludes with considering as a group how structures and policies for Affirmative Platforming can be created for University departments, public debates, & student societies.

FRI.

13th

1-230

**Venue: Keynes Lecture Theatre 2
University of Kent, Canterbury**
